ACADEMY DIRECTOR

Dear Applicant:

On, Wednesday, June 20, 2018, you will be given a physical condition assessment test. This test will be given for the Bridgewater Township Police Department.

Test attire will consist of solid black or navy blue running shorts, white socks, plain T-shirt (or plain sweatshirt depending on weather conditions) and an appropriate pair of running/gym shoes.

The testing process will begin **at 9:00 a.m.**, at the Raritan Valley Community College located at 118 Lamington Road, Branchburg, NJ 08876. Late arrival may remove you from the testing process.

Attached you will find;

1. Liability Release Form
2. Emergency Contact Sheet
3. Indemnification Agreement

All items must be completely filled out and handed in at the start of the testing. Failure to have these documents may preclude you from participation, thereby removing you from the applicant screening process.

Our Academy experience has shown us that many applicants are nervous just before a test. To properly prepare yourself for the physical condition assessment test you should eat properly and hydrate adequately the day before. Ensure you get enough sleep as well. You must bring minimally 16 ounces of water, a labeled backpack or item to carry your keys, identification, and other personal items.

If you have asthma or any other medical condition and are prescribed a medication/medical device (emergency inhaler, etc.), you must have that item with you in order to participate in this assessment test.

I understand that I am taking this test on a voluntary basis.

I understand that if I experience any pain or discomfort during the testing process, I should stop the testing process and advise one of the test administrators.
